The Most Remarkable Guarantee Ever Made on a Heating Stove

We have received a letter from the President of the Cole Manufacturing Company which specifically states that they can guarantee Cole's Original Hot Blast Stove to save a third in fuel over any lower draft stove of the same size with soft coal, slack or lignite; it is guaranteed to hold fire from Saturday night until Monday morning; guaranteed to have a smoke-proof feed door; guaranteed to remain air-tight as long as used; guaranteed to give a uniform heat day and night with soft coal, hard coal or lignite; guaranteed to use less hard coal for heating a given space than any base burner with the same size fire pot, and guaranteed to heat the rooms from one to three hours in the morning with the fuel put in the day before (which does away with kindling or rebuilding the fire each morning).

This guarantee comes with Cole's Hot Blast, which can be bought only from us. When you analyze this guarantee and see how they state in black and white just what it will do in comparison with other soft coal stoves, and even with hard coal base burners, it is safe to say that the majority of stoves bought this season for heating purposes will be the famous Cole's Hot Blast, for which we are the exclusive selling agents for this town. We have these stoves on our floor and will be pleased to show them to every one interested. Come soon.

### High School Notes.

Last Wednesday afternoon the English History class were given a written test.

Miss Phillips gave her Caesar class a written test Thursday afternoon.

Last Friday afternoon at 2:30 the Jackson High School football team played the Will Mayfield College of Marble Hill, the game ending in a score of 50-0 in favor of the High School. They have won every game they have played so far, and it looks like they are going to win all they play.

The English Literature class, having finished Emerson's essays, "Self-Reliance" and "American Scholar," was given a written test on the former last Friday.

On account of the football game Friday, the girls gave their program Thursday afternoon. It was a Plantation program, and was certainly carried out to indicate such. It was about the best that has been given. These societies are very helpful and instructive for the pupils, and all seem to be going at it in the right spirit. The program was as follows:

High School Song, by school.

Reading of minutes by secretary, Ethel McLain.

Piano solo, Grace Vinyard.

Reading, "Little Black Phil," Helen Grant.

Vocal trio, "Hush Song," Zaida Gladish, Helen Williams, Jean Caldwell.

Reading, "Ghostly Xmas Dance," Hazel Poe.

Piano solo, Bess Limbaugh.

Reading, "Origin of the Fiddle," Dixie Tristler.

Piano solo, Marie Schaefer.

Then short but instructive talks were made by Mr. Goodin, Mr. Oliver and Miss Phillips. Then, the pupils giving nine rahs for the High School, the society adjourned.

### BLACKSMITH SHOP.

We have opened up a blacksmith shop on Byrd's creek, near the Powell farm, and we are now ready to do all kinds of horse-shoeing and general blacksmithing. Give us a call.

1 C. C. WELLING & SON.

### Highley-Byington.

Mr. Frank Highley and Miss Nellie Byington were married on Monday, October 25th, 1909, at the residence of the bride's parents, Mr. and Mrs. S. A. Byington, Rev. William Court officiating. They left Tuesday morning for a short wedding tour, after which they will make their home in Farmington.

Mrs. Highley is the eldest daughter of Mr. and Mrs. S. A. Byington, and is one of Farmington's most popular young ladies.

Mr. Highley is the only son of Mrs. M. E. Highley, and is one of our most enterprising young men. The young couple have many friends, who wish them much happiness and prosperity in their new life.—Farmington Times.

### Live Stock Market.

National Stock Yards, Nov. 1.

Cattle receipts 8500. About two-thirds Natives and Westerns, including a good many pretty good steers, but nothing choice. Heifer stock decidedly in the minority, and good local demands held values steady for that kind, while all other cattle declined 10 to 15c. We look for smaller supplies and a reaction towards better prices by the end of this week.

Hog receipts today 6500. Market strong and active; top \$7.90; bulk of all the hogs \$7.70 to \$7.90; quality poor and choice heavy hogs would have made a higher top. Clearance good. Stock of provisions running low, and for that reason the outlook is strong for good hogs.

Sheep receipts 1200. Market 10c higher. Good to choice lambs \$6.50 to \$7. Good to choice sheep \$4 to \$4.25. Prospects strong on all kinds.

National Live Stock Com. Co.

### Fruitland.

Nothing new of importance.

Several attended the Witch Social last Saturday night, and all seemed to have a good time. Fortune-telling seemed to be the center of attraction.

Some few little tricks were played here on Hallowe'en night, but none to make anyone mad.

Corn-gathering is the go now. Corn is some better than was expected—not a better grade, but a better yield to the acre.

Mr. Houck's train last Sunday brought down two dead engines for the repair shop.

James Sawyer and family went fishing Saturday, but report no fish. J. says he guesses the creek was too clear.

C. N. Caldwell had 1½ acres of corn that made a little over a hundred bushels. Good! But he planted it to get a hundred bushels to the acre, and says he would have made it if it had rained at the right time.

Open season for killing quail is here, but places where a person is allowed to hunt are so few that there isn't any sport to it any more.

Off to the swamps for a hunt we go! Scribbler.

## Why Cole's Hot Blast Is Supreme Over All Heating Stoves

Every part of Cole's Hot Blast Heater is a stove masterpiece. And government patents permit them on Cole's Hot Blast only. Every little detail contributes towards making Cole's Hot Blast the fuel saver, a perfect heat radiator, a stove that holds fire from Saturday night to Monday morning, and the cleanest stove ever set up.

Remember Every Stove is Guaranteed

The air-tight construction holds back the heat and gases wasted up the chimney with other stoves. The hot blast draft burns the 15,000 feet of gas which is in every ton of soft coal. The heavy castings surrounding the fire protect the body of the stove at all points, and the sensitive, all-steel, radiating surface radiates all the heat into the rooms.

One season's use will cut your fuel bill in two and give you satisfaction such as you never believed possible with a heater. Will you come in and see?

J. W. McCOMBS, SOLE AGENT.
